

DEREHAM CHURCH INFANT AND NURSERY SCHOOL

5 YEAR STRATEGIC PLAN 2018 – 2023

What is our vision?

We aim for every child to develop their whole self as an individual, enjoy learning and strive to reach their full potential.

Matt 19v14

“Jesus said let the little children come to me and do not hinder them for the kingdom of heaven belongs to such as these”

What priorities do we set in our plan over the next 5 years to achieve it?

1. Ensure **school’s Christian vision and ethos is fundamental and is reflected** in all we do
2. Ensure **highest quality school leadership is maintained and developed** through higher and middle leadership
3. **Striving for Best** – highest quality teaching and learning with an aspirational and inspirational curriculum
4. Further develop the school’s **holistic approach to development of the individual child**
5. Promote **healthy positive relationships** with all members of the school community
6. Ensure **school’s continued sustainability** in an academy dominated environment and continuing strong financial and pro-active budget management.

The outcomes would be:

- Our vision and ethos is shared by all and reflected in all we do and the school environment and community is totally reflective of our Christian values.
- There is high quality leadership of the school which is sustainable and distributive
- Each individual child is enabled to achieve their highest possible level of attainment by the provision of consistently high quality teaching which is judged at least Good in each subject area.
- Our school provides a stimulating environment in which everyone feels safe and secure and each child is valued as an individual and is confident, caring and articulate and able to use their abilities to the full.
- Relationships between pupils, staff, parents, volunteers, governors and every other part of the school community are positive, healthy and characterised by trust and respect.
- The school also has beneficial working partnerships and collaboration with other schools and the local community
- The school has full role numbers in each cohort with a healthy demand for nursery places and is supported by a healthy budget
