

The Worrysaurus

1. Can you remember three things that Worrysaurus was worried about?

2. What did Worrysaurus have in his worry tin?

3. If you had a worry tin full of happy things, what would you put in it?

4. Can you think of any other words that mean the same as worry?

5. If you made a film of this story, what sort of music would you use in the background and why? Would the music change during the story?

Extra challenge! Could you create your own worry tin, jar or pot full of things to make you happy? What will you put inside?
