

Thursday

Use $<$, $>$ and $=$ to compare the number sentences

$$14+0 \bigcirc 14-1$$

$$13+3 \bigcirc 12+6$$

$$10+10 \bigcirc 12+8$$

$$9+1 \bigcirc 11-1$$

Choose the correct digit to make the number sentence correct.

$$11-1=9+ \underline{\quad}$$

10 1 0 5

Tommy says, '0 is the only number that can complete the number sentence.'

Is he correct? Explain how you know.

$$10+10=20+ \underline{\quad}$$

Complete the number sentences to compare them accurately.

$$10+10 > 10+ \underline{\quad}$$

$$12+2 = 10+ \underline{\quad}$$

$$9+1 < \underline{\quad}$$

Extension:

Maths Magician says, '20-0 must be less than 20+0 because subtracting makes the answer smaller'

Is he correct? Explain your answer below.
