

# Tuesday

This half term our new theme is The Zoo!

This week we will be learning all about what a zoo is, what happens at a zoo and the difference between animals living in captivity and animals living in the wild.

There will be a range of different daily videos for you to watch at home whilst also completing the activities below. Remember to upload any work you complete to Tapestry so we can see what you have learnt.

## Vocabulary: Zoo keeper

What do you think the word /zoo keeper/ means? Research the word with your grown-up.

## Fine Motor

Can you draw yourself as a zoo keeper? Practise writing your name underneath your drawing. Remember to write the first letter of your name as a capital letter as names always start with a capital letter.

## Maths

Today we are focusing on the number 10.

Can you collect 10 objects? How many different ways can you make the number 10? E.g  $5+4=9$

You could draw a lady bird again to help you.

Can you write down the number sentences that you make?

## Phonics

Watch the Phonics video on Tapestry. Practice writing the grapheme /ow/. Remember to join the letters together because it is a digraph. Can you write the word to match the picture?

Once you have practiced the grapheme, watch the rest of the phonics video and have a go at writing a sentence. Remember that a sentence needs a capital letter, finger spaces and a full stop.

## Creative

We have received a video from a zoo keeper! Look on Tapestry to watch the video from the zoo keeper!

He has said in his video that he is very hungry after looking after all of the animals and would like a healthy sandwich for his lunch.

Can you design and make a sandwich for him please?

## PE

Can you balance on one leg for 10 seconds?

Top tip: Keep your arms out straight and keep looking at one object.
