Tuesday
Fill in the spaces to write the number of ones and tens represented There is __ ten

There are $\qquad$ ones
 -

There is $\qquad$ ten

There are $\qquad$ ones

$\qquad$ ,

There are $\qquad$ tens

There are $\qquad$ ones

There are

Note: On last question there are 0 ones, do not include the ones in the tens.

One bundle of straws represents 10

$$
=10
$$

Fill in the spaces to write the number of tens and ones represented.
There is $\qquad$ ten

There are $\qquad$ ones

There are $\qquad$ tens

There are $\qquad$ ones

Doxa says:
'I have I ten

Is she correct? Put a tick or a croses in the bax to show your answer. $\square$

Complete the statements to make them correct

There are $\qquad$ tens and $\qquad$ ones.
$\qquad$ tens + $\qquad$ ones $=23$

Extension:
Maths Magician challenges you to represent the number 15, identifying the number of ters and ones.
 You can use any resources of your choosing.
