

# Home Learning

For this half term's theme, please find examples below of additional learning that you can complete with your child at home. These are not 'compulsory' but will provide more opportunities for your child to explore the theme and share their learning with their friends. Please upload a photo/video to Tapestry for us to add to your child's account. Also, please feel free to come up with your own activities for your child to complete!

## Design a new species of animals

Using parts of your favourite animals, can you create a new species?

## Junk Modelling

Can you make a model of an animal?

## Make a habitat

Can you make an animal habitat?  
What do animals need to survive?

## Can you describe animals?

Using your describing words can you describe different animals?

What does the animal look like, feel like and smell like?

## Make an animal story

What does your character say? Can you write in speech bubbles?

What sounds will your animals make in the story?

## Research

What can you find out about different mammals, birds and reptiles?

What facts can you find out about different animals?

## What animals have you seen?

Talk to an adult about the different animals you have seen or learnt about.

## Our important vocabulary this half term!

Can you practise it at home, we will update Tapestry each time we learn a new word.
