LO: to lengths and heights.

In this example are we comparing heights or lengths?

In this example are we comparing heights or lengths?

Rosie says: 'The height is how long something is and the length is how tall something is.'

Is she correct?

Explain what height and length mean.

Wednesday 3rd March 2021

LO: to lengths and heights.

Extension: Maths Magician is measuring the length of these cubes. He says the blue set is longer than the red set.

Give him a tick or a cross to show whether he is correct.
