

# Dereham Church Infant and Nursery School

## Online Safety Policy March 2023

### [1. Aims](#)

### [2. Legislation and guidance](#)

### [3. Roles and responsibilities](#)

### [4. Educating pupils about online safety](#)

### [5. Educating parents about online safety](#)

### [6. Cyber-bullying](#)

### [7. Acceptable use of the internet in school](#)[8. Pupils using mobile devices in school](#)

### [9. Staff using work devices outside school](#)

### [10. How the school will respond to issues of misuse](#)

### [11. Training](#)

### [12. Monitoring arrangements](#)

### [13. Links with other policies](#)

## 1. Aims

### Our school aims to:

- Have robust processes in place to ensure the online safety of pupils, staff, volunteers and governors
- Deliver an effective approach to online safety, which empowers us to protect and educate the whole school community in its use of technology, including mobile and smart technology
- Establish clear mechanisms to identify, intervene and escalate an incident, where appropriate

### The four key categories of risk

Our approach to online safety is based on addressing the following categories of risk:

- **Content** – being exposed to illegal, inappropriate or harmful content, such as pornography, fake news, racism, misogyny, self-harm, suicide, antisemitism, radicalisation and extremism
- **Contact** – being subjected to harmful online interaction with other users, such as child-to-child pressure, commercial advertising and adults posing as children or young adults with the intention to groom or exploit them for sexual, criminal, financial or other purposes
- **Conduct** – personal online behaviour that increases the likelihood of, or causes, harm, such as making, sending and receiving explicit images (e.g. consensual and non-consensual sharing of nudes and semi-nudes and/or pornography), sharing other explicit images and online bullying; and
- **Commerce** – risks such as online gambling, inappropriate advertising, phishing and/or financial scams

## 2. Legislation and guidance

This policy is based on the Department for Education’s (DfE’s) statutory safeguarding guidance, [Keeping Children Safe in Education](#), and its advice for schools on:

- [Teaching online safety in schools](#)
- [Preventing and tackling bullying](#) and [cyber-bullying: advice for headteachers and school staff](#)
- [Relationships and sex education](#)
- [Searching, screening and confiscation](#)

It also refers to the DfE’s guidance on [protecting children from radicalisation](#).

It reflects existing legislation, including but not limited to the [Education Act 1996](#) (as amended), the [Education and Inspections Act 2006](#) and the [Equality Act 2010](#). In addition, it reflects the [Education Act 2011](#), which has given teachers stronger powers to tackle cyber-bullying by, if necessary, searching for and deleting inappropriate images or files on pupils’ electronic devices where they believe there is a ‘good reason’ to do so.

The policy also takes into account the National Curriculum computing programmes of study.

### **3. Roles and responsibilities**

#### **3.1 The governing board**

The governing board has overall responsibility for monitoring this policy and holding the Headteacher to account for its implementation.

All governors will:

- Ensure that they have read and understand this policy
- Ensure that online safety is a running and interrelated theme while devising and implementing their whole school or college approach to safeguarding and related policies and/or procedures
- Ensure that, where necessary, teaching about safeguarding, including online safety, is adapted for vulnerable children, victims of abuse and some pupils with SEND because of the importance of recognising that a 'one size fits all' approach may not be appropriate for all children in all situations, and a more personalised or contextualised approach may often be more suitable

#### **3.2 The Headteacher**

The Headteacher is responsible for ensuring that staff understand this policy, and that it is being implemented consistently throughout the school.

#### **3.3 The designated safeguarding leaders**

Details of the school's designated safeguarding leaders (DSLs) are set out in our child protection and safeguarding policy as well as relevant job descriptions.

The DSLs take lead responsibility for online safety in school, in particular:

- Supporting the Headteacher in ensuring that staff understand this policy and that it is being implemented consistently throughout the school
- Working with the Headteacher and relevant staff to address any online safety issues or incidents
- Managing all online safety issues and incidents in line with the school child protection policy
- Ensuring that any online safety or cyber-bullying incidents are logged on CPOMs and dealt with appropriately in line with this policy and the behaviour policy. These incidents will be discussed in safeguarding meetings that are attended by DSLs

- Updating and delivering staff safeguarding training, that include information regarding online safety
- Liaising with other agencies and/or external services if necessary

This list is not intended to be exhaustive.

### **3.4 The ICT manager (through ICT Solutions)**

Working alongside the Senior Leadership Team and the service provided by Norfolk County Council, the ICT manager is responsible for:

- Putting in place an appropriate level of security protection procedures, such as filtering and monitoring systems, which are reviewed and updated on a regular basis to assess effectiveness and ensure pupils are kept safe from potentially harmful and inappropriate content and contact online while at school, including terrorist and extremist material
- Ensuring that the school's ICT systems are secure and protected against viruses and malware, and that such safety mechanisms are updated regularly
- Conducting a full security check and monitoring the school's ICT systems on a weekly basis
- Blocking access to potentially dangerous sites and, where possible, preventing the downloading of potentially dangerous files
- Ensuring that any online safety and cyber-bullying incidents are logged on CPOMs

This list is not intended to be exhaustive.

### **3.5 All staff and regular volunteers**

All staff, including contractors and agency staff, and volunteers are responsible for:

- Maintaining an understanding of this policy
- Implementing this policy consistently
- Agreeing and adhering to the terms on acceptable use of the school's ICT systems and the internet, and ensuring that pupils follow the school's terms on acceptable use (signed for on induction and annually at September INSET)
- Ensuring that any online safety and cyber-bullying incidents are logged on CPOMs
- Responding appropriately to all reports and concerns about sexual violence and/or harassment, both online and offline and maintaining an attitude of 'it could happen here'

This list is not intended to be exhaustive.

### 3.6 Parents

Parents are expected to:

- Notify a member of staff or the Headteacher of any concerns or queries regarding this policy

Parents can seek further guidance on keeping children safe online from the following organisations and websites:

- What are the issues? – [UK Safer Internet Centre](#)
- Hot topics – [Childnet International](#)
- Parent resource sheet – [Childnet International](#)

### 3.7 Visitors and members of the community

Visitors and members of the community who use the school's ICT systems or internet will be made aware of this policy, when relevant, and expected to read and follow it. If appropriate, they will be expected to agree to the terms on acceptable use.

## 4. Educating pupils about online safety

Pupils will be taught about online safety as part of the curriculum. The text below is taken from the [National Curriculum computing programmes of study](#). It is also taken from the [guidance on relationships education, relationships and sex education \(RSE\) and health education](#). All schools have to teach [Relationships education and health education](#) in primary schools.

**In Key Stage 1, pupils will be taught to:**

- Use technology safely and respectfully, keeping personal information private
- Identify where to go for help and support when they have concerns about content or contact on the internet or other online technologies

The safe use of social media and the internet will also be covered in other subjects where relevant/appropriate for all year groups including Early Years. Where necessary, teaching about

safeguarding, including online safety, will be adapted for vulnerable children, victims of abuse and some pupils with SEND.

## **5. Educating parents about online safety**

The school will raise parents' awareness of internet safety in letters or other communications home, and in information via our website. Parents will be reminded that if children have unrestricted internet access, this can lead to children suffering unmonitored sexual harassment, bullying, control and viewing indecent images, pornography and other harmful content.

If parents have any queries or concerns in relation to online safety, these should be raised in the first instance with the Headteacher and/or the DSLs.

Concerns or queries about this policy can be raised with any member of staff or the Headteacher.

## **6. Cyber-bullying**

### **6.1 Definition**

Cyber-bullying takes place online, such as through social networking sites, messaging apps or gaming sites. Like other forms of bullying, it is the repetitive, intentional harming of one person or group by another person or group, where the relationship involves an imbalance of power.

### **6.2 Preventing and addressing cyber-bullying**

To help prevent cyber-bullying, we will ensure that pupils understand what it is and what to do if they become aware of it happening to them or others. We will ensure that pupils know how they can report any incidents and are encouraged to do so, including where they are a witness rather than the victim.

The school will actively discuss cyber-bullying with pupils, explaining the reasons why it occurs, the forms it may take and what the consequences can be. Teachers will discuss cyber-bullying with their classes.

Teaching staff are also encouraged to find opportunities to use aspects of the curriculum to cover cyber-bullying. This includes personal, social, health and economic (PSHE) education, and other subjects where appropriate.

All staff, governors and volunteers (where appropriate) receive training on cyber-bullying, its impact and ways to support pupils, as part of safeguarding training.

In relation to a specific incident of cyber-bullying, the school will follow the processes set out in the school behaviour policy and anti bullying policy. Where illegal, inappropriate or harmful material has been spread among pupils, the school will use all reasonable endeavours to ensure the incident is contained.

The DSLs will report the incident and provide the relevant material to the police as soon as is reasonably practicable, if they have reasonable grounds to suspect that possessing that material is illegal. They will also work with external services if it is deemed necessary to do so.

### **6.3 Examining electronic devices**

School staff have the specific power under the Education and Inspections Act 2006 (which has been increased by the Education Act 2011) to search for and, if necessary, delete inappropriate images or files on pupils' electronic devices, including mobile phones, iPads and other tablet devices, where they believe there is a 'good reason' to do so.

When deciding whether there is a good reason to examine or erase data or files on an electronic device, staff must reasonably suspect that the data or file in question has been, or could be, used to:

- Cause harm, and/or
- Disrupt teaching, and/or
- Break any of the school rules

If inappropriate material is found on the device, it is up to the staff member in conjunction with the DSLs or other member of the senior leadership team to decide whether they should:

- Delete the material, or
- Retain it as evidence (of a possible criminal offence\* or a breach of school discipline), and/or
- Report it to the police\*\*

\* If a staff member believes a device may contain a nude or semi-nude image or an image that it's a criminal offence to possess, they will not view the image but will report this to the DSLs (or equivalent) immediately, who will decide what to do next. The DSLs will make the decision in line

with the DfE's latest guidance on [screening, searching and confiscation](#) and the UK Council for Internet Safety (UKCIS) guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#).

\*\* Staff will also confiscate the device to give to the police, if they have reasonable grounds to suspect that it contains evidence in relation to an offence.

Any searching of pupils will be carried out in line with:

- The DfE's latest guidance on [searching, screening and confiscation](#)
- UKCIS guidance on [sharing nudes and semi-nudes: advice for education settings working with children and young people](#)

Any complaints about searching for or deleting inappropriate images or files on pupils' electronic devices will be dealt with through the school complaints procedure.

## **7. Acceptable use of the internet in school**

All staff and governors are expected to sign an agreement regarding the acceptable use of the school's ICT systems and the internet.

Use of the school's internet must be for educational purposes only, or for the purpose of fulfilling the duties of an individual's role.

We will monitor the websites visited by pupils, staff, volunteers, governors and visitors (where relevant) to ensure they comply with the above.

## **8. Pupils using mobile devices in school**

Pupils are not allowed a mobile phone in school. If they bring a mobile to school (which a parent must agree to), they have to leave it in a secure location in the school office at all times during the school day.

## **9. Staff using work devices outside school**

All staff members will take appropriate steps to ensure their devices remain secure. This includes, but is not limited to:

- Keeping the device password-protected – strong passwords are recommended (at least 8 characters, with a combination of upper and lower-case letters, numbers and special characters)
- Ensuring their hard drive is encrypted – this means if the device is lost or stolen, no one can access the files stored on the hard drive by attaching it to a new device
- Making sure the device locks if left inactive for a period of time
- Not sharing the device among family or friends
- Installing anti-virus and anti-spyware software (this is done through our ict partner, ICT Solutions)
- Keeping operating systems up to date by always install the latest updates (this is done through our ICT partner, ICT Solutions)

Staff members must not use the device in any way that would violate the school’s terms of acceptable use, as set out in appendix 2. Work devices must be used solely for work activities.

If staff have any concerns over the security of their device, they must seek advice from the Senior Leadership Team.

## **10. How the school will respond to issues of misuse**

Where a pupil misuses the school’s ICT systems or internet, we will follow the procedures set out in our policies on behaviour. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident, and will be proportionate.

Where a staff member misuses the school’s ICT systems or the internet, or misuses a personal device where the action constitutes misconduct, the matter will be dealt with in accordance with the staff code of conduct. The action taken will depend on the individual circumstances, nature and seriousness of the specific incident.

The school will consider whether incidents that involve illegal activity or content, or otherwise serious incidents, should be reported to the police.

## **11. Training**

All new staff members will receive training on safe internet use and online safeguarding issues including cyber-bullying and the risks of online radicalisation.

All staff members will receive refresher training at least once each academic year as part of safeguarding training, as well as relevant updates as required (for example through emails, e-bulletins and staff meetings).

By way of this training, all staff will be made aware that:

- Technology is a significant component in many safeguarding and wellbeing issues, and that children are at risk of online abuse
- Children can abuse their peers online through:
  - Abusive, harassing, and misogynistic messages
  - Non-consensual sharing of indecent nude and semi-nude images and/or videos, especially around chat groups
  - Sharing of abusive images and pornography, to those who don't want to receive such content
- Physical abuse, sexual violence and initiation/hazing type violence can all contain an online element

Training will also help staff:

- develop better awareness to assist in spotting the signs and symptoms of online abuse
- develop the ability to ensure pupils can recognise dangers and risks in online activity and can weigh up the risks
- develop the ability to influence pupils to make the healthiest long-term choices and keep them safe from harm in the short term

The DSLs will undertake child protection and safeguarding training, which will include online safety. They will also update their knowledge and skills on the subject of online safety at regular intervals, and at least annually.

Governors will receive training on safe internet use and online safeguarding issues as part of their safeguarding training.

Volunteers will receive appropriate training and updates, if applicable.

More information about safeguarding training is set out in our child protection and safeguarding policy.

## 12. Monitoring arrangements

The DSLs and members of staff log behaviour and safeguarding issues related to online safety using CPOMs.

This policy will be reviewed every year by the Senior Leadership Team. At every review, the policy will be shared with the governing board. The review (such as the 360 safe Online Safety Self-Review Tool for Schools available [here](#)) will be supported by an annual risk assessment that considers and reflects the risks pupils face online. This is important because technology, and the risks and harms related to it, evolve and change rapidly.

## 13. Links with other policies

This online safety policy is linked to our:

- School safeguarding policy
- Anti-bullying policy
- Behaviour policy
- Complaints procedure
- Computing Curriculum
- Cyber bullying
- Internet, social media and email use

**ACCEPTABLE USE OF THE SCHOOL'S ICT SYSTEMS AND INTERNET: AGREEMENT FOR STAFF, GOVERNORS, VOLUNTEERS AND VISITORS**

**Name of staff member/governor/volunteer/visitor:**

**When using the school's ICT systems and accessing the internet in school, or outside school on a work device (if applicable), I will not:**

- Access, or attempt to access inappropriate material, including but not limited to material of a violent, criminal or pornographic nature (or create, share, link to or send such material)
- Use them in any way which could harm the school's reputation
- Access social networking sites or chat rooms
- Use any improper language when communicating online, including in emails or other messaging services
- Install any unauthorised software, or connect unauthorised hardware or devices to the school's network
- Share my password with others or log in to the school's network using someone else's details
- Take photographs of pupils without checking with teachers first
- Share confidential information about the school, its pupils or staff, or other members of the community
- Access, modify or share data I'm not authorised to access, modify or share
- Promote private businesses, unless that business is directly related to the school

I will only use the school's ICT systems and access the internet in school, or outside school on a work device, for educational purposes or for the purpose of fulfilling the duties of my role.

I agree that the school will monitor the websites I visit and my use of the school's ICT facilities and systems.

I will take all reasonable steps to ensure that work devices are secure and password-protected when using them outside school, and keep all data securely stored in accordance with this policy and the school's data protection policy.

I will let the designated safeguarding lead (DSL) and ICT manager know if a pupil informs me they have found any material which might upset, distress or harm them or others, and will also do so if I encounter any such material.

I will always use the school's ICT systems and internet responsibly, and ensure that pupils in my care do so too.

**Signed (staff member/governor/volunteer/visitor):**

**Date:**

Appendix 2: online safety training needs – self-audit for staff

ONLINE SAFETY TRAINING NEEDS AUDIT	
<b>Name of staff member/volunteer:</b>	<b>Date:</b>
Question	Yes/No (add comments if necessary)
Do you know the name of the person who has lead responsibility for online safety in school?	
Are you aware of the ways pupils can abuse their peers online?	
Do you know what you must do if a pupil approaches you with a concern or issue?	
Are you familiar with the school's acceptable use agreement for staff, volunteers, governors and visitors?	
Are you familiar with the school's acceptable use agreement for pupils and parents?	
Do you regularly change your password for accessing the school's ICT systems?	
Are you familiar with the school's approach to tackling cyber-bullying?	
Are there any areas of online safety in which you would like training/further training?	

## ICT Code of Conduct for pupils

I only use websites that an adult has told me I can use.

I can search the internet when an adult is with me.

I should tell an adult if I see something that I don't like or that worries me on the internet.

I should tell an adult and ask for help if I get lost on the internet.

I know that I should keep my personal information safe on the internet.

I should learn how to stay safe on the internet.

Child's name.....

Signature.....

## Dereham Church Infant and Nursery School ONLINE SAFETY POLICY.

**Dear Parents,**

As part of our school's curriculum, internet use is an everyday activity which is an integral part of our learning. We believe that use of ICT, including the Internet, is worthwhile and is an essential skill for children as they grow up in the modern world. As a school we will actively encourage the children to choose the internet as a means of research and furthering their own learning.

We are taking positive steps to deal with any risks associated with having access to undesirable materials in school. Our access to the Internet comes through Norfolk County Council Schools preferred provider (Updata) making filtered content available in schools.

Children will be introduced to a set of rules and taught how to use ICT devices responsibly. When they are given access to the Internet they will be supervised (supervised means that an adult will be present in the classroom at all times) and when appropriate directed towards specific curriculum activities and suitable websites. **However, the school cannot be held responsible for the nature or content of materials accessed through the Internet. The school will not be liable for any damages arising from your child's use of the Internet facilities.**

I enclose a copy of the children's Code of Conduct (rules for using the Internet), useful links concerning keeping safe online and a parent/carers agreement. Please read and sign the agreement form enclosed.

Should you wish to discuss any aspect of our use of ICT in school please contact us.

Yours sincerely,

Mrs Amy Futers  
Headteacher

**Parent/carers agreement form**

**Pupil name:** .....

**Pupil's class:** .....

**Parent / carer name:** .....

As the parent or carer of the above pupil, I grant permission for my child to have access to use the Internet and other ICT facilities at school.

I know that my child has been taught about and has signed to confirm that they will keep to the school's rules for responsible ICT use, outlined in the ICT Code of Conduct. I also understand that my child may be informed, if the rules have to be changed during the year. I know that the latest copy is available on the school's website within the policies section and have been given further advice about safe use of the Internet (sheet enclosed).

I accept that ultimately the school cannot be held responsible for the nature and content of materials accessed through the Internet and mobile technologies, but I understand that the school will take every reasonable precaution to keep pupils safe and to prevent pupils from accessing inappropriate materials. These steps include using a filtered internet service, employing appropriate teaching practice and teaching online safety skills to pupils.

I understand that the school can check my child's computer files, Purple Mash files and the websites they visit. I also know that the school may contact me if there are concerns about my child's online safety or online behaviour.

I will support the school by promoting safe use of the Internet and digital technology at home and will inform the school if I have any concerns over my child's online safety.

**Parent/carers signature:** ..... **Date:**.....
