

Year 1 Summer Term 2

Welcome Back!

We hope that you enjoyed the half term break.
We are looking forward to working alongside you again
this last half term.

Our theme for this half term will be 'Our Planet'.

PE

During this half term PE will be taught on **Mondays and Fridays** for both classes.

Please ensure that your child comes to school in their PE kit on these days so we can get maximum time from our sessions.

SNACK

Please ensure your child has fruit or vegetables only. Thank you.

Home Learning

Maths home learning will now be published for your child on Maths Whizz.

Maths Whizz home learning is for 20 minutes per week.

This is checked weekly by Mrs Cole and certificates are awarded for a variety of different milestones.

Spellings this half term

Your child will now receive personalised spellings. This is to learn spellings that they are commonly spelling incorrectly.

Please practise these weekly with your child.

Your child's class teacher will check on a Friday that they can spell them.

Phonics Screening

The Year 1 Phonics Screening Test will begin next week (w/c 12.06.23).

Please ensure that you are reading and/or playing the phonics games from the pack you were provided with last half term as much as possible.

Hats and water

As the weather finally starts to warm up please could we ask that your child comes to school with a named water bottle and a sun hat.

If you have any concerns or questions, please write in your child's link book and we will get back to you ASAP.

Thank you for your support!
Miss Watts and Miss Reeve

Year 1 Summer Term 2

Our Planet!

Home Learning Ideas

Our theme this half term is 'Our Planet!'.

During this theme we will be learning about how to care for the environment in literacy by focusing on the book 'Marli's tangled tale'.

We will also learn about famous explorers in history such as Neil Armstrong, Amelia Earhart and Tim Peake.

Can you create a collage of our world?

You can use anything you like, it could be paper, paint, Lego, scrap materials.

Feel free to bring it in for the class display or to take a photo of it.

Can you create an information poster about how to care for our world?

Find some different materials in your house and test to see if they are waterproof or not.

Please check with your grown up first before putting it in water!

Materials

Can you name any of these materials?

Use an iPad to watch a video of Neil Armstrong taking his first steps on the moon.

Can you act it out in your living room?

What might he have said?

What do you think he was thinking?
