Prior learning	Future learning
Children have explored using different materials and equipment to combine things together.	Children will start to make informed choices about the materials and equipment that they might choose to use for a set purpose.

What pupils need to know or do to be secure	
Key knowledge and skills	Possible evidence
➤ Children need to be able to think about a specific theme or topic that they are creating a product for. ➤ Children might begin to explain what their ideas are and why they might want to include it. ➤ Children will begin to use their own imagination to create products. ➤ Children will be introduced to existing products to support their imagination and ideas.	Children to work with adults and each other collaboratively to create a vehicle for someone who might help us. Children should talk together about the features of the vehicle and what might need to be included and where it might be going.
Key vocabulary	
Team, Talking, Working together, Group, Vehicle, Parts, Features, idea, imagine	
Common misconceptions	Books linking to this area
➤ without the first hand experiences children may not understand what features might be put where and how they might construct something. Conversations for planning will be key for this activity.	My first book of vehicles.

Memorable first hand experiences	Opportunities for communication
A fire engine or police car to come to school for the children to look in and explore [this is to give them ideas of what they might need to include when they are working on their own large vehicle].	Children will spend the entire session communicating with one another, discussing and exchanging ideas with adults supporting and scaffolding different conversations.
